Term ending 1987	Anne Tucker
Term ending 1987	David Parker
Term ending 1986	Nick Todisco
Term ending 1986	Lee Cagwin

DOCK MASTER

Mansfield Jordan

CLUB MANAGER

Len Montague

Date of Issue: May 20, 1986

HOUSE RULES AND REGULATIONS

HOURS

The clubhouse will be open for the general use of the members and their guests from the first weekend in July through Labor Day. During this period the clubhouse will be open daily except Mondays from 0900 to 2230 hours, unless otherwise posted. The club manager may extend these times at his discretion. The club will also be open on Saturdays and Sundays during the months of June and September and for club functions as published.

Members who are desirous of more extensive use of the clubhouse may petition, in writing, the Board of Governors for keys to the clubhouse. The acceptance of a key by a member imposes upon that member the full responsibility for maintaining the proper conditions and security of the clubhouse whenever he uses the facilities other than during published hours.

The Board of Governors at their discretion may permit the use of the facilities by nonmembers whenever this does not interfere with club activities or the privileges of the membership. It is the privilege of members to petition the Board of Governors for permission to use the facilities for non-club functions for which the club may be reimbursed.

KITCHEN FACILITIES

The kitchen facilities are out of bounds to the membership and their guests except when they are engaged in an organized club activity.

A refrigerator is provided outside the kitchen area for limited and temporary storage of perishables of individual members.

REST ROOMS

The sewage system in the clubhouse is dependent upon a septic tank system and a leach field with a finite capacity.

- A. The use of the showers is limited to two minutes in any one instance.
- B. Non-biodegradable materials are not to be disposed of in the toilets. Suitable receptacles are provided for their disposal.
- C. The rest rooms shall be kept neat and clean by the membership. Articles of clothing, towels, and equipment which are remaining in the rest rooms for a period longer than 12 hours will be removed to the LOST and FOUND.

GROUNDS

The clubhouse and grounds will be kept clean of trash. Recepticals are provided to receive trash. PLEASE USE THEM!

VEHICLES

The speed limit on club property is 5 MPH. Vehicles shall be parked in designated areas. At no time except when actually loading or unloading shall they block access to the launching hoist or docks.

CHILDREN

Small children will be permitted in the clubhouse only when accompanied by their parents or designated supervisor. It is the responsibility of parents to control their children so that they do not annoy or disturb other users of the club or damage club property.

MOORING

In the Coast Guard approved mooring areas there are no club moorings. Guest vessels must obtain mooring privileges in the approved areas from the Harbor

Master of the Town of Henderson or they may use the mooring of an individual with his express permission but not otherwise.

SHROUDS AND HALYARDS

The lines on all boats shall be dampened so they will not strike the mast and generate noise. This rule applies to all vessels whenever they are moored or docked.

HOIST

The hoist is provided to facilitate the launching of trailable boats of members and invited regatta participants. This hoist cannot take a load in excess of 1000 pounds. It is the responsibility of those using the hoist to remove vehicles (cars and trailers) immediately from the area of the hoist on land, and to moor or dock their boats so that they do not interfere with the launching of other boats.

PETS

Pets are not permitted in the clubhouse. Dogs are not permitted on club property except when they are being conducted between a vehicle and a vessel. They shall be controlled on a leash not to exceed three feet in length. It is the responsibility of pet owners to control their animals and to clean up after them immediately if necessity requires.

CAMPING

Camping on club property is not permitted.

DOCKING RULES

1.0 General Considerations

- 1.1 The owner (club member or visitor) of any boat tied up to any HHYC dock or sea wall shall be deemed to have consented to these rules and charges and specifically to have agreed that the dock master and dock crew

may board or move the boat without any liability attaching to the Club, dock master, or dock master's crew.

1.2 The term dock master shall mean:

- i. The person appointed by the Club to be dockmaster, or
- ii. Any person designated by the dock master or flag officer to be acting dock master in the absence of the dock master, or
- iii. In the absence of any of the above, the Club Manager or any person designated by him.

1.3 These rules may be suspended, waived, modified, or supplemented by the dock master:

- i. During or in preparation for a regatta, or
- ii. Because of dangerous weather conditions, or
- iii. During periods of light usage of the docks such as weekdays, and post and pre-season, or
- iv. Because of any other situation which may make such suspension, modification or supplement reasonable and desirable.

1.4 Charges for violations of these rules will be billed to the owner in the same manner as for dues and other Club charges.

1.5 These rules will be strictly enforced from May 15 through September 15 and particularly on week ends and holidays. Failure to enforce any rule in any given instance shall not be deemed a waiver in any other instance.

1.6 All owners and crews shall cooperate with all reasonable requests of the dock master regarding location and methods of tying up that are for the purpose of accomodating the maximum number and sizes of boats.

- 1.7 Rule 3.5 (regarding on-board crew) will generally be suspended during the period commencing 10 minutes before a skipper's meeting preceding a race and ending 10 minutes after the meeting. The race committee boat may be tied up in the loading zone during this period without penalty.

2.0 LOADING ZONE

- 2.1 The west end of the main dock and the western 33 feet of the north side of the main dock are reserved for temporary tie-up for loading and unloading. Time limit is 30 minutes from 0700 till 2200 hours.
- 2.2 After 2300 hours these zones may be used for overnight dockage with permission from the dockmaster.
- 2.3 The south wooden pier is reserved for dingy class boats for rigging, unrigging, and loading from 1000 to 2000 hours or until all such boats have returned to the Club and have been removed from the water, whichever is earlier.
- 2.4 Charges for overtime tie-up will be assessed at \$1.00 for the first 15 minutes and \$5.00 per additional 30 minute period (or portion thereof). Violators may be fined without warning.

3.0 LONG TERM DOCKING

- 3.1 No boat may be left at any dock unattended for periods longer than 3 hours. Exceptions to this rule may be granted for good reason (e.g. repair of the boat), if permission is obtained in advance from the dock master. The boat shall be tied up in a location designated by the dock master.

- 3.2 Any boat tying up at any of the docks or sea wall must accept other boats rafting out-board from it. This is an express agreement and consideration for the use of any dock.
- 3.3 Any boat tying up on the south side of the main dock must do so in a manner that will allow three boats to be tied directly to the dock on the south side. The most easterly boat shall be tied up bow-in with the bow within one foot of the sea wall. Dingies must not be left tied to boats on the dock or rafts.
- 3.4 Any boat rafting on another boat must have adequate fenders of at least 5 inch diameter, preferably larger.
- 3.5 Any boat rafting must have on board, or in the immediate vicinity, a crew capable of and willing to get the boat under way on not more than 5 minutes notice in order to allow a boat inboard of it, or any boat they are blocking, to leave the dock area. This crew requirement must be fulfilled at all times between 0900 and 2200 hours. Common courtesy dictates that rafts need not be broken more often than hourly prior to 1200 hours except on race days. Immediate vicinity means on board or on the Club grounds and readily locatable. Subject to the above courtesy consideration, any boat not moving within five minutes of a request to do so will be assessed charges equal to those for overtime in paragraph 2.4. In addition, the dock-master is authorized to move any boat violating this rule. Any boat that must be moved by the dock master or dock crew because the boat crew is unavailable or incapable of releasing a blocked boat will be assessed a charge of \$15.00.
- 3.6 Boats shall not raft more than three deep in the last row (westerly) on the south side of

the main dock without the express approval of the dock master. In any event, any boat in the last row rafting more than two deep must vacate the raft no later than 0900 hours.

- 3.7 Boats of less than 4'6" draft are strongly requested to use the sea wall or center dock when lake water levels are adequate to do so.
- 3.8 Boats using a sea wall must tie up perpendicular to the sea wall, using booms when appropriate.
- 3.9 All boats tying up to the south side of the main dock must do so in such a manner that the boat will not move either forward or backward, and will not rotate. This usually requires that one or more spring lines be used. Rafting boats must observe the same requirements. Nylon lines of adequate size are the lines of choice.

DUES

All membership dues and assessments shall be paid by the 15th of February. Delinquent memberships will be posted on May 1. If dues and assessments are not paid by June 1, the membership will be in forfeiture. Members who are in default may reapply for membership. They may be assessed a penalty not to exceed the amount of initiation, if accepted.

GUESTS

All guests must be registered in the guest register. Guests shall abide by the same rules which govern the members.

ANY WILLFUL VIOLATION OF THE ABOVE RULES RESULTING IN DAMAGE TO CLUB PROPERTY OR REPUTATION WILL BE CONSIDERED GROUNDS FOR SUSPENSION OF CLUB PRIVILEGES.
